

Green Chalet

Environmental Friendly Level

This is a comparative information for level of consumption between staying in "Green Chalet" and Standard Room.

In this room, we offer a green choice of fan, and replaced 100% lights with LED to reduce energy consumption. Reuse all of grey water from flushing for plant irrigation. Use zero plastic and only eco-friendly amenity and packaging for less environmental impact. Support our community by use of locally made products for minibar. Thank you for joining us
